PLUMBLE'S WORLD™

A little story & a feeling

A ready-to-use invitation for preschool, library storytime, or home.
Ages 2–5 · One grown-up and one child or a small group · About 10 minutes

1 Watch together

Open The Tiny Treasure Trail: a counting adventure with Plumble, Tully, and Wisple. Let children watch beside you. Invite them to notice a friend or a treasure.
Watch the story on YouTube · Explore plumblesworld.com

2 Notice one feeling

Show the Big Feelings Chart on page 2. Say: "Which feeling would you like to point to?" A point, a word, a gesture, or choosing to pass are all welcome. You can begin: "I feel curious about this story."

3 Make a little color story

Offer page 3 and crayons. Say: "Choose a color for a feeling." Children can use any color they choose. If they want, ask: "What could happen next in our little story?" Listen without correcting the feeling or the color.

4 Share a quiet pause

Use the Glow Breath Card on page 4. Sit alongside the child and invite one comfortable breath together. They may join in or simply watch. A feeling does not have to disappear.

Make it fit your group
Ages 2–3: point, gesture, or make a mark together. Ages 4–5: invite a feeling word or one sentence about the story. Keep participation optional.
Print only the pages you need. Adults handle any cutting. Home, classroom, and library use welcome.

Plumble's World

Where big feelings find their colors

Big Feelings Chart

Name the feeling. See its color. Share it together.

Calm
settled and open

Joyful
bright and light

Sad
heavy and slow

Frustrated
hot but okay

Cozy
safe and quiet

Loving
warm toward you

Worried
fluttery inside

Wonder
wide and curious

Proud
tall inside

Plumble's World

Where big feelings find their colors

The Glow Breath

One slow breath in. One slow breath out. That is the whole thing.

breathe in

and

breathe out

1. Sit down next to each other.
2. Breathe in while the glow grows.
3. Breathe out while it softens.
4. Do it three times. Then stop.

You breathe too. Little ones borrow the pace of whoever is nearest, so your breathing does more of the work than the picture does.
